# VALSYNTHESE ANNOUNCES HBTA CAS 2754-40-7

The new hydrogenation facilities, both supporting a pressure of max 25 bar, are represented by:

- a state-of-the-art kilo-lab (ISO/GMP)
- a pilot-plant facility (up to 7 bar)
- a 4000 L Hastelloy new reactor (ISO/GMP)

VALSYNTHESE SA 3900 Brig / Switzerland
