

VIRTUAL EVENT

API Manufacturing

March 18, 2026

Focus on:

Connect with experts in the pharmaceutical manufacturing community

Join API manufacturing experts, process chemists, and pharmaceutical innovators for a focused event exploring the latest advances in active pharmaceutical ingredient (API) production. Featuring a keynote on continuous manufacturing and modern synthesis strategies, followed by an interactive round table, this event delivers actionable insights into efficiency, quality, and regulatory excellence in API manufacturing.

Be a part of this sponsored event's impact:

- Reach quality key decision-makers, scientists, and professionals
- Demonstrate thought leadership with strategic content
- Spark engagement and reinforce brand credibility
- Showcase your solutions and application resources
- Amplify brand visibility amid a competitive industry with an audience-first strategy toward content
- Generate high-quality GDPR-compliant leads

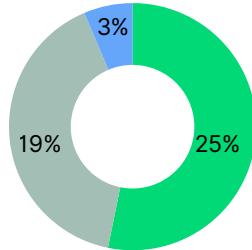

Audience insights

Some key job titles and roles reached:

- Process chemists and manufacturing engineers
- Pharma manufacturing & supply chain manager
- Toxicologists and quality assurance professionals
- Drug regulatory affairs specialists
